List FOR SUCCESSFUL RESULTS SOW OUR
free SPECIALLY SELECTED STRAINS OF
on
request **VEGETABLE & FLOWER SEEDS**

*If you
are grinding
Lawnmowers
Shears
Scissors*

We can supply the exact machine to suit your needs.

For example, our LAWMOWER GRINDERS which vary from the 27" Bench Model to the 42" Heavy Duty Fully Automatic Model can:—
Grind any cylinder on its own bearings, whatever the shape or size.

Grind one blade at a time AND spin finish.
Grind bottom blades on their own sole plates, without elaborate setting up, changing work-heads or grinding wheels.

Do all these things faster and more accurately than ever before.

Small cylinders can be ground in two or three minutes, whilst gang mower cylinders take approximately eight minutes.

Our SHEAR GRINDERS will perfectly hollow grind all types of shears, long handled or otherwise, with great speed and precision.

We are also putting on the market a SCISSOR GRINDER, which we know will fulfil a long-desired need.

Full details of these machines can be obtained from Stand No. 'K' at the Manchester Flower Show, Platt Fields Park, Manchester or from the manufacturers:—

THE NATIONAL TRUST

The National Trust for Places of Historic Interest or Natural Beauty was formed in 1895 with the object of acquiring and maintaining for public enjoyment beautiful land and buildings of historic and architectural importance. It now owns 285,500 acres, comprising over 1,000 properties, in England, Wales and Northern Ireland, and has accepted many covenants which protect beautiful land or buildings.

The variety of the Trust's properties is immense—moors, mountains, cliffs, woods, lakes, waterfalls, nature preserves, mansions and manor houses, castles and cottages, bridges, mills, barns, villages and canals, all of which are now preserved for our enjoyment.

The latest acquisition in this district, Tatton Park, Knutsford, has just been opened and is attracting many hundreds of visitors. Open every day, except Monday, this property offers an extensive park, beautiful gardens and a house which contains many treasures, including a choice collection of Regency furniture.

The Trust is independent of the State and depends for its existence upon the support of private individuals. Membership is open to all and a big increase is needed to enable it to carry on its work effectively. Information about the Trust will gladly be given at the Trust Stand, where members may also be enrolled.

SCHOOLS, CHILDREN'S AND LADIES' CLASSES

Besides Children's competitive classes, there are exhibits of gardening and nature study from schools in Manchester and district.

Plants grown by Primary school children in many cases under most difficult conditions are exhibited together with flowers grown in a more favourable environment.

In the section under Secondary Education, one sees the production of vegetables and flowers of the larger Secondary Modern Schools and the Gardening Centre. Methods of propagating plants, growing trees and shrubs and alpine are shown.

Other work associated with the garden is shown and includes science and soil studies, insect life, pest disease and plant life, flower arrangement and construction of gardening appliances.

Flower arrangements by members of adult classes are also exhibited.

ROYAL ARMY PAY CORPS
Ashton-under-Lyne

DID YOU KNOW . . . ?

that the Royal Army Pay Corps spends something like two hundred million pounds a year on the Army's behalf, and is therefore the biggest "Accounts Department" in the country?

that the Corps' Electronic Computer, I.B.M. 705, at WINCHESTER, is one of the biggest in Europe today, and that we train our own programmers and other staff to operate it?

that the R.A.P.C. run the Army's cost accounting, the biggest project on hand at the moment being an investigation into the real cost of the Army's enormous fleet of vehicles?

that the Corps train the Regular R.A.P.C. soldier in Book-keeping and Accountancy, up to Intermediate standard of the Royal Society of Arts or London Chamber of Commerce (a most useful qualification for "civvy street")?

that the R.A.P.C. have people serving all over the world, and with nearly every Regiment or Corps, including such crack troops as the Household Cavalry, the Brigade of Guards, the Paratroopers, the Gurkhas, etc., etc.?

that at an Apprentices School at R.A.P.C. Department, Worthydown, Winchester, Boys are required from the age of 15-16½ to be trained as Soldier Accountants.
